Kitap 2: Egzersizler

100

egzersiz

7.092

soru

YDS, YÖKDİL ve YDT gibi akademik İngilizce sınavlarına hazırlık sürecinde karşılaşılan en büyük engel, kelimeleri sadece izole anlamlarıyla ezberlemeye çalışmaktır. Oysa bir kelimeyi gerçekten öğrenmek; onu doğru bağlam içinde görebilmek, cümle içindeki işlevini kavramak ve benzer yapılar arasından doğru olanı ayırt edebilmekle mümkündür.

Elinizdeki bu kitap, **bolkelime** sisteminin sunduğu **5 aşamalı** ve **50 haftalık** sistematik kelime edinimi sürecini doğrudan hedef odaklı egzersizlerle pekiştirmek amacıyla tasarlandı.

Uygulama sürecinde haftanın ilk 6 günü boyunca her gün 20–25 yeni kelimeyle tanışıyor, 7. günde ise kapsamlı tekrarlarla bu bilgiyi taze tutuyoruz. Bu kitapta yer alan **7.092 cümle / iki seçenekli soru**, haftalık öğrenilen ortalama 140 kelimenin tamamını canlı birer bağlam içine yerleştiriyor.

Sistemimizin temel çalışma dinamiği ve bu kitabın sunduğu avantajlar:

- **Çift Yönlü Pekiştirme:** Her hafta için titizlikle hazırlanan iki ayrı egzersiz seti (70–75 soru) sayesinde, o haftanın tüm kelimeleri bir kez doğru yanıt, büyük bir kısmı ise en az bir kez çeldirici olarak karşınıza çıkar. Böylece tüm kelimeleri en az 1 kez, büyük bir kısmını 2 kez bağlam içerisinde tekrar etmiş olursunuz.
- **Bağlam Temelli Öğrenme:** Kelimeler soyut listeler halinde değil; akademik sınavlarda karşılaştığınız tarzda kurgulanmış özgün cümleler eşliğinde sunulur.
- **Hızlı Karar Verme ve Ayırt Etme:** İki seçenekli yapı, zihni gereksiz karmaşadan uzak tutarak kelimelerin anlamsal ve yapısal farklarına odaklanmanızı sağlar; sınav anındaki okuma hızınızı ve ayırt etme becerinizi artırır.
- **5 Aşama, 50 Hafta ve 100 Egzersiz:** 5 aşamadan oluşan 50 haftalık yolculuğun her haftası için 2'şer egzersizle toplam 100 egzersizlik kesintisiz bir pratik imkânı sağlar.

Bu kitabı, **bolkelime** üzerindeki haftalık çalışmalarınızın hemen ardından bir pekiştirme ve ölçme aracı olarak kullanmanızı öneririz. Süreç boyunca yapacağınız en önemli çalışmalardan birinin bu egzersiz çalışmaları olduğunu belirtmek isteriz. **Lütfen bu çalışmalara gerekli hassasiyeti ve özeni gösteriniz.** Cümleleri sadece doğru seçeneği bulmak için değil, cümlenin genel mantığını ve çeldirici kelimenin neden o bağlama uymadığını analiz ederek çözmek daha etkili olacaktır. Bu çalışmalarda birincil amacımız hafta boyunca gördüğümüz kelimeleri bağlam içerisinde tekrar etmektir ancak bir yandan da **cümle çevirme ve yorumlama becerimizi** de geliştirmeye çalışmamız süreci daha da verimli hale getirecektir. **Bu nedenle kitap üzerinden çalışmalarını tamamladıktan sonra uygulamamız üzerinden cümlelerin çevirilerini de incelemenizi özellikle tavsiye ederiz.**

○ Başarılar...

Şimdiden yapacağınız çalışmaların faydalı olmasını, süreç sonunda da hedeflediğiniz puanları alabilmenizi dileriz. Herhangi bir noktada aklınıza bir şey takılır, motivasyonunuz düşer ya da umutsuzluğa kapılacak olursanız hiç endişe etmeyin, **bizler yanınızdayız!**

İngilizce Öğretmeni

Yunus EREN

1. I need to **SWIM / SHOP** because we have no food at home.
2. All the **CHILDREN / WORKERS** in my class are very kind and helpful to me.
3. I **AT LEAST / SOMETIMES** walk to school, but usually I take the bus.

63. Thomas was very unhappy because **NO ONE / SOMEONE** came to his birthday party.
64. Today is the **BEST / WORST** day of my holiday. We are having so much fun.
65. My grandfather had a long and wonderful **SPOKESPERSON / LIFE**; he lived until he was ninety-five.
66. I have been very tired **LATELY / SLOWLY** because I haven't slept well for the past few weeks.

1. Historians have noted that the **APPETITE / DISGUST** felt by the colonial administrators toward indigenous customs often served to justify oppressive policies and cultural erasure.
2. Literary prize **NOMINEES / VIRTUES** gain substantial readership increases regardless of whether they ultimately win.
3. The research institution decided to **DISMAY / FILE** a patent application to secure intellectual property protection for the newly developed biometric authentication technology.
4. The scientific community continues to **DEVOUR / MARVEL** at the resilience of tardigrades, microscopic organisms that can survive extreme radiation, vacuum, and even the harsh conditions of outer space.
5. Coastal communities view rising sea levels with profound **SEGMENT / DISMAY**, recognizing the existential threat to their settlements.
6. Declining birth rates across several developed nations have led to a noticeable drop in overall **ENROLMENT / ABATEMENT** in rural primary schools.
7. High-intensity interval training significantly enhances maximal oxygen uptake in minimal time; **ON THE OTHER HAND / AFTER ALL**, insufficient recovery between sessions exponentially elevates musculoskeletal injury risk.
8. In classical mythology, the mythical **HERO / AFTERMATH** often embarks on a dangerous quest to protect the community from destructive monsters.
9. Technological advancements in automation suggest that many traditional manufacturing jobs are **MARVELLOUS / DESTINED** for obsolescence, forcing a fundamental reassessment of labor policies.
10. Modern university **ORIENTATION / SCRUTINY** programs increasingly emphasize mental health awareness, digital resource literacy, and collaborative research ethics alongside campus acclimation.
11. Innovative architectural designs **MORE OFTEN THAN NOT / OR SO** face initial resistance from planning authorities accustomed to conventional building aesthetics.
12. As the construction of the dam would **STAGNATE / INTRUDE** upon sacred indigenous burial grounds, it ignited fierce opposition from human rights groups and cultural preservation advocates.

13. Systemic corruption is an institutional **MIRACLE / MALADY** that undermines public trust in democratic institutions and weakens regulatory enforcement mechanisms.
14. The historian traced the maritime **SUPERSTITION / COMMODITY** against women on ships to the early modern period, when sailors believed that female presence would anger the sea gods and cause catastrophic storms.
15. Renewable energy projects require substantial initial capital investment; **AFTER ALL / ON THE OTHER HAND**, developing modern electrical infrastructure involves sophisticated technological components.
16. The **NAIVE / ECCENTRIC** orbit of the newly discovered exoplanet suggests that gravitational interactions with an unseen companion body have significantly disturbed its original orbit.
17. Modern polytechnic universities actively **ENROL / ORIENT** their engineering curricula toward emerging green technology sectors and sustainable industrial manufacturing practices.
18. Experienced fitness trainers consistently remind beginners that there is no magical **DISMAY / SHORTCUT** to building long-term muscular strength.
19. Elite competitive tennis players must cultivate a calm and focused **TEMPERAMENT / DISGUST** to withstand intense psychological pressure during grand slam finals.
20. Educational outcomes in underfunded districts consistently **LAG / CONFER** behind those in wealthier areas, perpetuating a cycle of inequality that spans multiple generations.
21. Emerging metropolitan manufacturing hubs across Southeast Asia have become the primary **SUPERSTITION / DESTINATION** for rural laborers seeking specialized industrial employment opportunities.
22. Prolonged exposure to high-energy visible blue light is suspected of accelerating degenerative conditions that impair macular health and general **DESTINY / EYESIGHT**.
23. The coastal waters of the Mediterranean have become increasingly **INFESTED / SYNCED** with invasive jellyfish populations, which compete directly with native fish species for food resources.
24. The **SHORT-SIGHTED / BAD-TEMPERED** approach to urban planning in the 1960s, which prioritized highways over public transport, continues to plague modern cities with congestion.

25. The ancient Roman arches, constructed without modern steel reinforcement, continue to **HOLD UP / GO FOR** remarkably well, demonstrating the extraordinary durability of their hydraulic cement mixture.
26. High school graduates can **ENTWINE / ENROL** in vocational training programs to acquire practical technical skills for various industrial careers.
27. The discovery of the Higgs boson represented a **MONUMENTAL / NOMADIC** achievement in particle physics, confirming theoretical predictions that had remained untested for nearly half a century.
28. Historic preservation guidelines restrict the extent to which architects can **MAKE OVER / CATCH ON** heritage buildings with contemporary modifications.
29. Several philosophers have argued that human consciousness is fundamentally **ENTWINED / ROCKED** with language, as our capacity for self-reflection depends intrinsically upon linguistic structures.
30. Forensic laboratories **POLL / SCRUTINIZE** every piece of physical evidence recovered from the crime scene, using a wide range of spectroscopic and chromatographic techniques.
31. The ecosystem has been destabilized by a(n) invasive species, an **CORE / INTRUDER** introduced accidentally through international shipping routes that now outcompetes native flora.
32. The pharmaceutical company was fined billions for attempting to **FALSIFY / POSTULATE** clinical trial data, specifically regarding the safety profile of their best-selling anti-inflammatory medication.
33. Emergency government subsidies prevented the national rail operator from descending into complete administrative and financial **ENROLMENT / BANKRUPTCY**.
34. Indigenous communities strongly **TREASURE / CARVE** their oral traditions, which contain unique linguistic structures, historical narratives and ecological knowledge passed down through multiple generations.
35. Commercial aircraft typically cruise at a(n) **ALTITUDE / POLE** of approximately ten thousand metres, where the reduced air density allows for optimal fuel efficiency and minimizes weather interference.
36. Social media platforms with extensive data collection practices often face criticism for being excessively **SANITARY / NOSY** about user behavior.
37. Anthropologists note that many traditional crafts are gradually disappearing with the **PASSING / ODOUR** of older generations in rural villages.
38. The survival of endangered polar bear populations will **HOLD UP / HINGE ON** global efforts to reduce carbon emissions and halt ice melt.
39. Academic publications that challenge established paradigms often face initial skepticism before eventually earning recognition and **ACCLAIM / VANITY** from future scholars.
40. International film festivals **PARALYSE / NOMINATE** exceptional productions across multiple categories including direction, performance, and cinematography.
41. Water treatment facilities utilize chemical chlorination and ultraviolet irradiation to **SANITIZE / REASSURE** raw reservoir water for domestic consumption.
42. Universities frequently **RECRUIT / FILE** international researchers to enhance their academic reputation and foster cross-border scientific collaboration.
43. When the last fluent speaker of an indigenous language passes away, that linguistic heritage is lost **FOR GOOD / IN VAIN**, along with centuries of accumulated cultural knowledge.
44. The nation's **STATUTE / DESTINY** as a maritime power was sealed by its geographic position, which naturally oriented its trade routes toward the Eastern seas for centuries.
45. Historical evidence suggests that extreme political polarization often **BREEDS / TEMPERS** social unrest and undermines democratic institutions over time.
46. The symbiotic relationship between clownfish and sea anemones provides a **NEAT / DISGUSTING** example of mutualistic adaptation in marine biology.
47. Prolonged sleep deprivation frequently results in reduced emotional regulation capacity and **BAD-TEMPERED / TIME-SAVING** behavior.
48. Botanical expeditions to cloud forests routinely discover undescribed plant **SESSIONS / SPECIMENS** that yield novel bioactive compounds for pharmaceutical synthesis.
49. Linguistic nativists **POSTULATE / INTRUDE** that human infants possess an innate universal grammar that facilitates rapid grammatical acquisition across diverse linguistic environments.

50. The composer's unfinished symphony, which he worked on for a decade **OR SO / IN VAIN**, was finally completed by a musicologist who meticulously studied his surviving sketches and annotations.

51. Chemotherapy treatments often reduce a patient's natural **MALADY / APPETITE**, requiring specialized nutritional interventions to prevent rapid weight loss.

52. Modern urbanization policies have frequently disrupted the seasonal migration corridors traditionally utilized by **NOMADIC / CUTTING-EDGE** communities across the Sahel region.

53. In **STAGNANT / CONCERTED** water bodies with minimal circulation, the concentration of dissolved oxygen tends to decrease significantly, leading to the death of aquatic fauna.

54. Red warning flags along coastal beaches **STRAIN / DENOTE** hazardous rip currents and alert swimmers to avoid entering dangerous waters.

55. Rapid ascents from deep saturation dives without visual reference points can trigger severe vestibular **REASSURANCE / DISORIENTATION** and physiological panic among divers.

56. Bleached coral reefs across tropical archipelagos have become an alarming **BET / SIGHT**, underscoring the rapid escalation of marine heatwaves worldwide.

57. Fragile arid ecosystems become increasingly **STRAINED / EPIDEMIC** as prolonged agricultural groundwater extraction depletes subterranean aquifers beyond recovery thresholds.

58. The dynamic relationship between supply and demand remains at the **TEMPER / CORE** of modern market economies, determining price fluctuations and production levels.

59. Many environmentalists argue that policymakers should **GO FOR / THROW UP** renewable energy subsidies rather than carbon taxes, as the former provides more predictable incentives for innovation.

60. Rapid population growth in metropolitan regions places an unsustainable **GOODS / STRAIN** on public water and electricity distribution systems.

61. Early agricultural settlements made a dangerous **CIRCLE / BET** on monoculture farming, leaving entire populations vulnerable to sudden seasonal crop failures.

62. The municipal health **OFFICER / INSTANCE** declared an emergency sanitary quarantine to prevent the transboundary dissemination of waterborne bacterial pathogens.

63. Evolutionary biologists have proposed that the **DISGUSTING / COURTLY** nature of certain stimuli, such as spoiled meat and infected wounds, represents a universal adaptive mechanism for disease avoidance.

64. The sudden release of tectonic stress beneath the earth's crust has the capacity to **ROCK / MARVEL** extensive geographical regions, causing both structural damage and soil liquefaction.

65. Rapid urban expansion tends to **HINGE ON / THROW UP** complex social and environmental challenges for municipal transport planning authorities.

66. Eighteenth-century merchant vessels transported high-value luxury **GOODS / HEROINES**, such as porcelain, spices, and textiles, along well-established oceanic trade routes.

67. The theory of plate tectonics gradually **THREW UP / GAINED GROUND** throughout the twentieth century, eventually becoming the cornerstone of modern geological understanding.

68. The committee announced the official **VEGETATION / NOMINATION** of three historic monuments for inclusion on the national endangered cultural heritage list.

69. Political decision-making often occurs within an exclusive **CIRCLE / RECRUIT** of advisors, potentially excluding diverse perspectives from the policy process.

70. Agricultural scientists analyze soil mineral composition and moisture levels to determine the **OPTIMUM / VIRTUOUS** conditions required for high-yield cereal germination.

71. Assuming that renewable energy alone will fix global ecological degradation is **NAIVE / DEAR**, as it overlooks the fact that renewables do nothing to stop plastic pollution, habitat loss, or unsustainable consumption.

72. Opinion **POLLS / STATUES** conducted before major elections frequently show significant variations depending on sampling methodologies and demographic weighting.

73. The **ORIENTATION / FALSIFICATION** of archaeological evidence, including the notorious Piltdown Man hoax, set back human evolutionary studies by decades and damaged scientific credibility.

Türkiye'nin en kapsamlı sınav kelime uygulaması. 20+ yıllık tecrübe ile oluşturulmuş, aşamalı ilerleme sistemi ve 280+ saat video içerikle tam sınav hazırlığı.

İng-Tür Sınav Sözlüğü

Son dönem sınavları da dahil bugüne kadar yapılmış tüm YDS, e-YDS, YÖKDİL ve YDT'lerin kapsamlı analizi sonrası oluşturulmuş en güncel, en kapsamlı İngilizce-Türkçe sınav sözlüğü **bolkelime**'de.

Kelime Listeleri

İster sizin için hazırladığımız listeler ister kendi oluşturacağınız listeler üzerinden kelime tekrarlarınızı ve kontrollerinizi yapın! Her liste için farklı tekrar yöntemleri, egzersizler ve testler ile kalıcı bir kelime edinimi gerçekleştirin!

Günlük Görevler & Aşamalı İlerleme

Günlük 20-25 hedef kelimeyi farklı alıştırmalar, testler ve aralıklı tekrar yöntemiyle edinmenizi sağlıyoruz. Her aşamanın 10 hafta sürdüğü toplam 5 aşama ile 50 haftada tüm hedef kelimeleri kalıcı ve olabildiğince eğlenceli bir şekilde edinmenizi amaçlıyoruz. İlk 4 aşama için video anlatım desteği de mevcut.

Soru Bankası

Sınavlarda sorulan kelime sorularına hazırlık için bol soru, bol pratik imkanı **bolkelime**'de!
1.200 özgün, 680+ çıkmış soru; üstelik tamamı Türkçe çevirileri, 900'den fazlası video çözümleri ile birlikte!
